STATE CLEARINGHOUSE

NEWSLETTER

May 1 through 15, 2003

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1 through 15th, 2003.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Phillip Crimmins (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

DATE: MAY 15, 2003
TO: ALL CEQA LEAD AGENCIES
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE
RE: ACKNOWLEDGEMENT LETTERS FOR CEQA DOCUMENT SUBMITTALS

Due to recent budget cuts we are no longer able to provide written acknowledgement of the receipt of your Environmental Impact Report or Negative Declaration for state review. We will discontinue this service effective June 1, 2003. You may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation, or access that information by visiting our CEQAnet database at www.ceqanet.ca.gov. We apologize for any inconvenience this may cause you.

The State Clearinghouse will continue to provide a closing letter with any state comments on the date following the close of the review period.

ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2002

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	DOCUMENT TOTAL	Total Projects
1999	602	481	2007	1808	2699	41	22	177	7,837	6,715

KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of May 1 - 15th, 2003.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Thursday, May 01, 2003</u>			
2003054001	Typical Recurring Actions for Flood, Earthquake, Fire, and Wind Disasters in California Federal Emergency Management Agency -- The project sponsor proposes 19 typical actions undertaken by FEMA, which are funded through FEMA's assistance programs, in response to or in preparation for flood, fire, wind, rain, and earthquake disasters.	EA	06/02/2003
2001082030	El Dorado County General Plan El Dorado County Planning Department Placerville--El Dorado Adoption of new general plan.	EIR	06/16/2003
2002121056	Fast Track Commercial WECS Permit No. 112/Change of Zone No. 6723/Variance Case No. 1739 (FTA#2001-56) Riverside County Planning Department Palm Springs--Riverside Wind Energy Project and ancillary facilities, with 36 wind turbines totaling 21.6 MW (Alternative Site Plan 1) or 35 wind turbines totaling 23.1 MW (Alternative Site Plan 2), with change of zone from W-2 to W-E, and variance from 1000 footscenic setback along Interstate 10 allowing setbacks of 618-feet to 703-feet.	EIR	06/16/2003
2003051002	Michael Brasil Dairy, CUP 03001 Merced County --Merced The proposed project consists of the construction and operation of a new dairy that includes the following features: Dairy facilities consisting of all new structures constructed mainly of concrete and steel, including a milk house, parlor and holding/sprinkler pen, three freestall barns, four open hospital pens, six heifer pens with shade structures, a silage slab and commodity barn, one main wastewater storage pond and two settling ponds on 20 acres of a 129.5+- acre site. A herd of approximately 1,100 total animals will be housed. Processing will be at an off-site creamery.	NOP	05/30/2003
2003051005	Eternal Hills Memorial Park Expansion Project Oceanside, City of Oceanside--San Diego The project proposes a 36.11-acre expansion of the Eternal Hills Memorial Park Cemetery, a donation of 18.83 acres to the Veteran's Museum and Memorial Center for a Veterans Cemetery, subdividing 2.78 acres of the property into four single family residential lots plus a remainder lot, and dedication of 30.58 acres of the property as biological open space.	NOP	05/30/2003
2003032133	Duncan Shopping Center Parcel Map (PM 03-06) & Expansion Project (ARB 02-49) Chico, City of Chico--Butte The project involves a 97,675 sq. ft. addition to the existing 125,930 sq. ft Wal-Mart store, which will bring the total square footage to 223,605 sq. ft. A total of 505 new parking spaces will also be added. The project also involves a Parcel Map which will create a new 2.24 acre parcel at the southwest corner of the site, as well as relocate and create new utility easements across the property. <u>Documents Received on Thursday, May 01, 2003</u>			
2003051001	Geotechnical Investigation for the Proposed Sorrento-Miramar Curve Realignment and Second Main Track San Diego, City of San Diego--San Diego Site Development Permit (SDP No. 8794) to conduct a geologic investigation for the proposed North County Transit District (NCTD) Sorrento-Miramar Curve Realignment and Second Main Track. The field explorations would include an excavation of the test pits and seven large-diameter bucket auger-borings within approximately 0.393 acre of land in environmentally sensitive lands, including the City of San Diego Multi-Habitat Planning Area, and open space. The 12 sites would be isolated on vegetated slopes on private and public (City) property within Soledad Canyon. The project is located along Nancy Ridge Drive, between Carroll Canyon Road and the existing NCTD main railroad track line, within the Mira Mesa community planning area.	Neg	05/30/2003
2003051003	Darwin Knolls Project Oceanside, City of Oceanside--San Diego 15 lot single family development on 7.73 acres.	Neg	05/30/2003
2003051004	Darwin Glen Project Oceanside, City of Oceanside--San Diego A 25-lot single family subdivision on an 11.6-acre site.	Neg	05/30/2003
2003051006	PD-S-942/TT5411 Simi Valley, City of Simi Valley--Ventura The project includes a tract map and planned development permit to create 90 town homes. The project will include the extension of Mt. Sinai Drive from the Cemetery on the west to Kuehner Drive.	Neg	05/30/2003
2003051008	Tentative Tract Map 02-03 Poway, City of Poway--San Diego A proposal to subdivide a 76.9 acre property into 8-residential lots with each having a minimum lot size of 4-acres.	Neg	05/30/2003
2003051009	Construction of McCall Mesa K-8 School and Gymnasium Romoland School District --Riverside Construction of a new K-8 school, including a gymnasium to accommodate the need for additional student housing resulting from increased residential growth in the neighboring areas.	Neg	05/30/2003
2003051010	EAR-1414 and Conditional Use Permit No. CUP-02-13 Upland, City of Upland--San Bernardino Provide for the expansion and development of the Upland Basin in order to allow for retention of 850 acre-feet of storm water, plus 200 acre-feet for groundwater recharge, thus ultimately retaining a total of 1,050 acre-feet of water. The request consists of removing approximately 2.5 million cubic yards of excavated material from the site. Approximately 700,000 cubic yards are to be exported to an existing pit located along the southwest corner of Monte Vista Avenue and Arrow Route.	Neg	05/30/2003

2003052001	Weaverville Shoulder Widening Caltrans #2 --Trinity Safety and operational improvements on a 0.5 mile section of highway 299 in the town of Weaverville. The proposed project will increase the width of the highway to accommodate shoulder widths.	Neg	05/30/2003
2003052002	Parcel Map 02-07/Annexation 02-11 Chico, City of Chico--Butte Tentative Parcel Map and Annexation to subdivide 2.07 acres into two lots for future development of Parcel 2 as a single-family residence and annexation from Butte County into the City of Chico jurisdiction.	Neg	05/30/2003
2003052003	Regional Park North Sports Complex Auburn Area Recreation and Park District Auburn--Placer The proposed project is the acquisition of land adjacent to the existing Chana High School by the Auburn Area Recreation and Park District for development as a community park. This phase of the project would also include minor infrastructure development. The land is currently owned by the Placer Union High School District and is vacant. The project site consists of Assessor's Parcel Number (APN) 51-210-91. No specific park development plan is under consideration at this time, however potential uses contemplated include open space, pedestrian trails, picnic area, and athletic fields. Further environmental analysis will be conducted to ascertain the environmental impacts of development of a park at this location when a specific park development plan is proposed.	Neg	05/30/2003
2003052004	American River Common Features, R7/L7 FEMA Fix Sacramento Area Flood Control Agency Sacramento--Sacramento The proposed project involves placing a mixture of dirt and/or aggregate on the dry side of the levee in four locations along the American River at the H Street bridge. This toe buttress will provide levee reinforcement to meet FEMA requirements for 100-year flood protection.	Neg	05/30/2003
2003052005	Community Building Sutter Creek, City of Sutter Creek--Amador Construction of a new 2,400 square foot Community Building.	Neg	05/30/2003
2003052006	The Lodge at Tahoe Donner Truckee, City of Truckee--Nevada Demolition of an existing 4,129 sq.ft. golf course clubhouse and construction of a new 9,255 sq. ft. golf course clubhouse on 3.3-acre site. Land use and zoning approvals include (1) Use Permit for clubhouse facilities in a recreation zoning district (2) Lot line Adjustment between the subject property and adjacent golf course.	Neg	05/30/2003
2003052007	Trinity Dam Boulevard Shoulder Widening Trinity County Planning Department --Trinity Widen shoulder on west side of Trinity Dam Boulevard and the north side of Texas Avenue in Lewiston to provide 15 foot wide pedestrian/ bicycle/ equestrian pathway, between Lewiston Park Subdivision, Mountain View Subdivision, and the	Neg	05/30/2003

	post office complex at Lewiston Road and Trinity Dam Boulevard.		
2003052008	Mabury Park/Penitencia Creek Park Chain-Research 6 Master Plan San Jose, City of San Jose--Santa Clara The completion of a three-phased plan to sequentially construct multi-use trails paralleling Penitencia Creek and move active recreational facilities within Mabury Park.	Neg	05/30/2003
2003052009	Meyer Minor Subdivision Humboldt County Planning Department Fortuna--Humboldt The project is a minor subdivision of an approximately 5.84 acre residential parcel into two parcels of approximately 2.53 acres gross and 3.31 acres gross. The existing single-family residence will remain on the proposed southern parcel; the proposed northern parcel is intended for future development of a single-family residence. The Rohnerville Airport is approximately 2,000 feet from the subject parcel. The subject parcel and the surround parcels are dominated by pasture vegetation, but contain remnant patches of coniferous forest with very little shrub layer. There are no wetland areas or streams on or adjacent to the subject parcels.	Neg	05/30/2003
2003052011	Vineyards at Cloverdale Cloverdale, City of Cloverdale--Sonoma General Plan Amendment from Industrial Park to Medium Density Residential. Planned Development, Tentative Map and Design Review for a 29 unit subdivision on 6.01 acres.	Neg	05/30/2003
2003052012	County File #LP022047 Contra Costa County Community Development Oakley--Contra Costa A request for approval of a land use permit to establish exploratory drilling and production facilities for a natural gas well on 1.3 acres of prime agricultural land. Facilities would include a drilling rig, pumps, tanks diesel engines, compressors and various other pieces of support equipment. The applicant anticipates that the operation would last no longer than 5 years. Pursuant to Division 3 of the Public Resources Code, the site would be returned to its pre-well state at the time the well operation ceases. The subject site is a vacant agricultural parcel located on the south side of Jersey Island Road on Jersey Island.	Neg	05/30/2003
1996013003	Dougherty Valley General Plan Amendment (Windemere) Contra Costa County Develop 1,061 acres into a mixed commercial and residential area. An additional 1,259 acres will be open space habitat. The main branch of Alamo Creek, ponds and several unnamed tributaries will be impacted during construction of the ultimate project. This agreement will cover work slated for Phase 2, 3, and 4 (2003-2004 construction seasons). SAA #1600-2003-0152-3.	NOD	
2000061004	STP 99-047; Log No. 99-14-036 San Diego County Alpine--San Diego The project is the construction and operation of a neighborhood shopping center. The center will consist of a supermarket-drugstore, a multi-tenant retail building and a second smaller retail building and a fast-food restaurant with a drive-thru.	NOD

2000092069	Seaview Ranch EIR Watsonville, City of Watsonville--Santa Cruz SAA #R3-2002-0654 As part of a development, drainage improvement and a storm water detention area will be constructed. The project is located at 425 Errington Road, west of the City of Watsonville in Santa Cruz County.	NOD	
2001071109	MacArthur Boulevard/Red Hill Avenue Intersection Improvements Irvine, City of Irvine--Orange Alter the streambed and bank by the widening of Lane Channel as a result of the City of Irvine transportation improvements required along MacArthur Boulevard at the existing Lane Channel and the construction of concrete retaining flood walls, and the extension of the existing triple Reinforced Box Culverts under Red Hill Avenue.	NOD	
2001121138	Jones Elementary School San Bernardino City Unified School District San Bernardino--San Bernardino The project includes the acquisition of approximately 12.75 acres of land for the construction and operation of an elementary school for up to 900 elementary school students. The project also includes a facility for the operation of preschool, infant toddler, and pregnant minor programs serving up to 24 preschoolers, infants, or students. Approximately 86 teachers, aids, administrators and other personnel would staff the school. The school facilities will include single story classroom and administrative buildings, turf athlete fields and hardcourt play areas.	NOD	
2002012036	Ubiquitel Cellular Monopole Collocation, Brockway Summit (EIAQ-3637) Placer County Planning Department Truckee--Placer Extend an existing monopole by 16.5 feet in length, including the installation of antennae at the top. Project includes installation of a platform for the base equipment.	NOD	
2002021140	Summit at Carlsbad Carlsbad, City of Carlsbad--San Diego Alter the streambed within an unnamed drainage, tributary to Buena Vista Creek to accommodate the development of the Summit at Carlsbad residential subdivision. Construction activity will result in 0.13 acre of impacts to streambed.	NOD	
2002102076	Arroyo Mocho Widening/Arroyo Las Positas Realignment Project Zone 7 Water Agency --Alameda Zone 7, in coordination with the Alameda County Community Development Agency, proposes to realign the lowest reach of Arroyo Las Positas in a new channel so that the confluence with the Arroyo Mocho will be located at El Charro Road, approximately 2,100 feet east of its present location. Two existing private bridges will be replaced with new bridges to accommodate quarry traffic. SAA #1600-2003-0068-3.	NOD

<u>Documents Received on Thursday, May 01, 2003</u>			
2002121084	Psychology Building Additon and Renewal University of California, Santa Barbara Goleta--Santa Barbara The proposed project would add a 31,270 gsf addition to the existing Psychology building. The three-story (plus basement) addition would contain specialized teaching labs, faculty and administrative offices, and new research equipment, such as functional Magnetic Resonance Imager (fMRI).	NOD	
2002122079	Stanly Ranch Vineyards Subdivision Napa, City of Napa--Napa The project is the construction of two new bridges, approximately 30-feet long, and 27-feet wide over Congress Valley Creek and Buhman Creek. Both creeks flow in an easterly direction, and empty into the Napa River. The bridges will have concrete decks cast over steel docking. Concrete abutments will be constructed at each end of both bridges. The bridges are part of a new road to be constructed for a subdivision.	NOD	
2003031004	Castaic Lake Water Agency (Santa Clarita Water Division) Sky Blue Tank Site Additions Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project's objective is as follows: - To provide water during peak hour water usage periods to the Shapell/Monteverde project, a 2,500-unit residential development that is under construction north of the site. The proposed project would complete the water supply for this residential development. The proposed project is the construction of two above ground water storage tanks and an associated storm drainage system on a site that is owned by the Castaic Lake Water Agency. This site already contains a 1-million-gallon water tank and a 2-million-gallon water tank operated by the Castaic Lake Water Agency, Santa Clarita Water Division ("CLWA/SCWD"). Access to the site would be provided by the existing access road off of Whites Canyon Road just north of Enderly Street. The site is entered through a locked gate and is not accessible to the public. The proposed tanks would provide water during peak hour water usage periods to the Shapell/Monteverde project, a 2,500 unit residential development that is under construction north of the site.	NOD	
2003031009	Student Resource Building and LRDP Amendment University of California, Santa Barbara --Santa Barbara The proposed project would provide 66,515 gsf in a three-story building with a single story wing. The facility will provide office and meeting space for a variety of student organizations and activities, in addition to a child care center. The proposed project is consistent with the Academic land use designation on the site in the 1990 LRDP, which allows for administrative and student support uses. The LRDP Amendment is required because the site is not identified as a potential building location. The proposed project would create a new building site, #37. The proposed amendment of the LRDP would result in no net change in the allocated development potential of the UCSB Main Campus, the amendment would transfer unused building allocation from Building Site #6 (17,400 asf), Building Site #8 (21,156 asf) and Building Site #2 (4,599 asf). 2003031010	Snidecor Hall Office Wing Seismic Replacement University of California, Santa Barbara Goleta--Santa Barbara The proposed project would provide 34,614 gsf in a one and two story structure (the MND evaluated 34,846 gsf). The facility would accommodate instruction and research space for the Department of Dramatic Arts and Acting, Dance and Design Studios, and a general assignment classroom space (150 seats). The project involves the replacement of the partial two-story office wing west of Hatlen Theater. The office wing to be demolished contains 19,720 gsf.	NOD	
2003032025	East Bay Habitat for Humanity Site Department of Toxic Substances Control Oakland--Alameda The project described herein is an approximately 2-acre parcel located on 10900 Edes Avenue in the City of Oakland, Oakland, California. The site is zoned as mixed light industrial and residential. The surrounding land use is light industrial and residential.	NOD	
2003032034	Soil Vapor Extraction and Treatment with Discharge to Air Regional Water Quality Control Board, Region 5 (Central Valley), Fresno Sacramento--Sacramento AmeriPride Services Inc. proposes to operate a soil vapor extraction and treatment system to remove volatile organic compounds from the unsaturated zone beneath the site at 7620 Wilbur Way, Sacramento. The vapor will be treated with a catalytic oxidizer acid scrubber and two activated carbon vessels in the series.	NOD	
2003058001	Crabtree Park Senior Fitness Walkway Arden Manor Recreation and Park District Sacramento--Sacramento Removal of existing vehicle barrier bollards around the perimeter of the park and replace with a 7" concrete curb and sidewalk. The addition of 3 curb access points to meet ADA standards will be included. The existing park perimeter is a public hazard and a potential liability. This project will bring the park up to existing standards for safety. The residents of the district are the beneficiaries.	NOE	
2003058002	Monument Picnic Area Arden Manor Recreation and Park District Sacramento--Sacramento Demolition of existing monument and replace it with a modified monument, shade structure, and picnic tables. Move an existing horseshoe pit and install another horseshoe pit. The residents of the park district are beneficiaries.	NOE	
2003058003	Community Center Walkway and Stage Arden Manor Recreation and Park District Sacramento--Sacramento Removal and replacement of existing concrete sidewalk and patio to accommodate ADA accessibility standards. The residents of the district are the beneficiaries.	NOE	
2003058004	Crabtree Park Irrigation Refurbishment Project Arden Manor Recreation and Park District Sacramento--Sacramento The project will upgrade the existing irrigation system to a modern water efficient system. Changes in the park make it necessary to reconfigure the system. The residents of the park district will benefit from this project.	NOE

Documents Received on Friday, May 02, 2003

2003051018	Ewiiapaayp Reservation Casino/Southern Indian Health Council Clinic Lease Amendment/Fee-to-Trust Acquisitions National Indian Gaming Commission --San Diego The proposed actions consist of the following: 1) approval of a gaming management contract; 2) lease amendment approval; 3) construction of a consolidated health clinic; 4) construction of a casino facility; and 5) trust acquisition of five parcels.	EA	06/04/2003
2003054003	South Fork Merced River Bridge Replacement Project Yosemite National Park Service --Mariposa The South Fork Bridge is located in Yosemite National Park on the South Fork Merced Wild and Scenic River in Wawona and conveys foot and vehicle traffic across the river via Wawona Road (Highway 41). The National Park Service proposes to remove the existing South Fork Bridge, replace it with a single-span structure, and remove the temporary Bailey bridge that has been carrying traffic since 1998. The South Fork Bridge, constructed in 1931, is no longer structurally sound or safe for use and has been condemned. The demolition and replacement of the bridge would increase visitor safety, protect the river and park utility lines attached to the bridge from impacts associated with the potential collapse of the condemned bridge, and remove the current in-channel bridge piers, which act as impediments to the free flow of the South Fork. 2002091025	Southern California Gas Company (SCG)/San Diego Gas & Electric (SDG&E) Fiber Optic Cable in Gas Pipelines Public Utilities Commission --Fresno, Imperial, Kern, Kings, Los Angeles, Orange, ... The "project" identified in this application is a request for authorization of a new rate schedule implementation for a new service allowing Communications Companies (or "Carriers") to place fiber optic cable inside conduit previously installed by SCG's or SDG&E's in active gas distribution pipelines ("FIG"). The project area includes both SCG/SDG&E service area in central and southern California.	EIR	06/16/2003
2001111171	Mission Boulevard Redevelopment Plan Adoption Montclair, City of Montclair--San Bernardino The project includes the proposed adoption of a redevelopment plan that totals approximately 404.6 acres, including 102.9 acres in the City of Montclair and 301.7 acres in the County of San Bernardino. The redevelopment plan includes a list of public improvement projects that could be funded by the Agency, should sufficient tax increment revenues become available from the project area. This re-circulation of the project description only is to allow all responsible, taxing and reviewing agencies the opportunity to review and comment on the new role of the County of San Bernardino as a Responsible Agency in the proposed project. The draft EIR was previously circulated April 5, 2002 to May 20, 2002.	FIN

2003051012	Hueneme Drain Pump Station Reconstruction Project Ventura County Port Hueneme--Ventura To provide flood protection to the residents of Port Hueneme by replacing aging pumps at the Port Hueneme Pump Station. Project components include: Installation of 2 new pumps, emergency generator, traveling water screen, inflatable dam, and improving water quality.	NOP	06/02/2003
2003051013	Cuyamaca College Master Plan Grossmont-Cuyamaca Comm. College District El Cajon--San Diego The proposed Master Plan Consists of the construction of the following over the next 10 to 15 years: student center, science laboratories, communication arts buildings, business/computer science building, physical education facilities, classroom/administration building, social/behavioral science building, and surface parking lots. Several of the proposed buildings may be phased due to funding limitations. In addition, remodels and expansions of existing buildings are proposed, including but not limited to, the classrooms, library and warehouse buildings. These projects would increase space on campus by approximately nearly double the existing space on campus to service up to 15,000 students.	NOP	06/02/2003
2003051014	City of Carlsbad Water and Sewer Master Plans - EIR 03-01 Carlsbad, City of Carlsbad--San Diego The CMWD and CSD each propose to implement a master plan for the provision of infrastructure services throughout the City. The purpose of the Water Master Plan is to make facility upgrades and increase capacity for the distribution of potable water; the Sewer Master Plan would update the City's sewer collection facilities. CMWD and CSD propose to implement the plans in order to identify needed infrastructure, make facility improvements on aging infrastructure, increase capacity for identified expansion needs, reduce maintenance costs, and in the case of the Sewer Master plan, reduce the potential for wastewater overflows.	NOP	06/02/2003
2003051011	Rancho Buena Vista High School Stadium Project Vista City Unified School District Vista--San Diego The District proposes to develop a 6,000-seat sports field stadium to replace existing facilities located in the western portion of the campus. Accessory structures include two ticket booths and two single-story restrooms/snack bar buildings. Improvements also include replacement of the existing track surface with an all-weather material and new handicap parking stalls, sidewalks, and handicap drop-off. Enhancements to the existing public address system may be implemented and the existing sports field lighting will remain.	Neg	06/02/2003
2003051015	First Baptist Church Development Plan/Coastal Development Permit D020105D San Luis Obispo County --San Luis Obispo A request to allow a 3,637 square foot addition to the existing 4,685 square foot sanctuary, 2,500 square feet of new classroom space, and remodel of the existing 2,400 square foot modular classrooms into a Fellowship Hall, on a 2.1 acre site. 2003052017	Sulphur Creek Low Flow Crossing Removal and Stream Restoration Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland St. Helena--Napa Replacement of instream concrete low-flow crossing with single-span bridge. Restoration of 900 feet of Sulphur Creek to benefit steelhead habitat.	Neg	06/02/2003
2003052025	Grant Street / Foss Creek Culvert Crossing Extension Project Healdsburg, City of Healdsburg--Sonoma At present, the existing crossing of Grant Street over Foss Creek can only accommodate two vehicle lanes and lacks pedestrian sidewalks. The City is proposing to widen an approximately forty-foot long section of Grant Street from a width of approximately 19' to 50' in order to install public sidewalk on both sides of the street. The location of this project is within the North Coast Railroad Authority's right-of-way. The new street section would include 5-foot wide public sidewalk along both sides of the street, safety railings at the back of sidewalks over the creek, and improved pedestrian access through the remainder of the railroad's right-of-way, including an asphalt concrete surface over the track rails. The widened street section, which would match existing adjacent sections of Grant Street, would allow two traffic lanes, parking lanes on both sides of the street and the two sidewalks. 	for bank stabilization, creek meander restoration, creation and enhancement of bed morphologic diversity (e.g. ponds, riffles, etc.), and extensive riparian re-vegetation. The purposes of the restoration project are to reduce erosion and downstream sedimentation within the Laguna Creek watershed, restore and extend a native riparian corridor, increase environmental awareness in the community, and provide educational opportunities for students.		
2003031126	Petitions to Change Water Right Permits 20831 and 20832 State Water Resources Control Board Monterey, Carmel--Monterey The Petitioner seeks to add a new point of diversion from the Carmel River subterranean stream to Permits 20831 and 20832 and increase the permitted place of use by 1,240 acres (to a total of 1,777 acres) to include the Canada Woods East and Canada Woods North subdivisions located adjacent to the original place of use.	NOD	
2003032107	Malakoff Diggins Sewer Collection System Project Parks and Recreation, Department of Nevada City--Nevada The Department of Parks and Recreation proposes to make the improvements described herein to the sewer collection system in Malakoff Diggins State Historic Park. * Install 1300 feet of six-inch sewer line along Main Street extending from the Sherwood House to a point in front of the Grey House. * Install a 7,000-gallon septic tank near the Gaus House. * Install a 12,000 square foot leach field in the northwest corner of China Gardens. * Connect the septic tank and leach field to the sewer line. * Connect sewer line to six park residences and one museum, extend line to vicinity of future public restroom and install service stub to facilitate connection at time of construction. * Decommission existing septic systems and abandon in place; fill with either sand or slurry.	NOD	
2003059002	Lake or Streambed Alteration Agreement for Notification #03-0136 Forestry and Fire Protection, Department of -- The California Department of Fish and Game is executing a lake or streambed alteration agreement pursuant to section 1603 of the Fish and Game Code to the project applicant, Tom Harrington, representing Sierra Pacific Industries. The applicant proposes to install and upgrade two permanent crossings on Class II watercourses, in connection with completion of Timber Harvesting Plan 2-00-242SHA.	NOD

<u>Documents Received on Monday, May 05, 2003</u>			
2003058070	Huasna River Tributary Vegetation and Debris Removal Fish & Game #3 Arroyo Grande--San Luis Obispo Remove newly grown vegetation from the stream channel to facilitate the flow of water through the project site. After water has ceased to flow in the creek, and the creek bed is dry, the Operator would use a bulldozer to scrape the surface of the creek bed to remove immature willows that sprout and grow in the channel. No soil or sediment would be removed from the streambed during scraping. Tires, trash, dead and downed wood and other debris found in the creek or that were deposited in the creek by previous landowners would be removed and disposed of at an appropriate offsite location, while dead and downed wood may be burned at least 75 feet from the stream channel.	NOE	
2003058071	City of San Luis Obispo / Cal Poly Fiber Loop Fish & Game #3 San Luis Obispo--San Luis Obispo The proposed project would use directional boring equipment to drill under Alrita Carta Creek to install a conduit for a fiber optic line. The conduit would be two inches in diameter and would be not less than 12 feet below the bottom of the creek bed. The entry and exit bore pits would be located at least 100 feet from each bank of the creek. The bore would be along the east side of Sacramento Drive and would follow an existing Southern California Gas pipeline. Emergency response equipment would be onsite in the event of a frac-out of drilling material. No disturbance of the creek banks or riparian vegetation would occur.	NOE	
2003058074	Tree Observation Platforms Parks and Recreation, Department of --Sonoma Construct three separate ADA-compliant wooden tree observation platforms leading from adjacent trails to the popular Colonel Armstrong, Parson Jones, and Goosepen redwood trees located in Armstrong Redwoods State Reserve. Project prevents further damage to root systems of redwoods caused from unauthorized pedestrian foot traffic by providing a defined path of travel for visitors who wish to approach trees. Revegetate areas surrounding all three trees with native plant species. Project protects natural resources, improves accessibility and visitor services, and supports continued use.	NOE	
2003058075	Fife Creek Stream Setback -Day Use Picnic Area Parks and Recreation, Department of --Sonoma Relocate historic CCC-era furniture within Day Use picnic area adjacent to Fife Creek in Armstrong Redwoods State Reserve to establish a 20-foot wide stream setback. Current location of furniture results in erosion/sedimentation within creek and damage to nearby vegetation caused by pedestrian foot traffic. Repair furniture in kind as necessary. Relocated furniture will remain within existing picnic area. Project protects cultural and natural resources, and supports continued use.	NOE	
2003058076	Door Installation -Call Ranch Barn Parks and Recreation, Department of --Sonoma Install entry door to work shop housed within historic Call Ranch barn at Fort Ross State Historic Park to provide a more accessible entrance/egress to park staff. Currently staff must open a large, heavy sliding door to enter and exit structure,	NOE

2003054004	U.S.B.P "Indio Station" U.S. Department of Homeland Security Indio--Riverside The purpose for this expansion of USBP facilities is to provide a safe and efficient working environment for 83 USBP agents, their support staff, and station equipment. The Indio Station was established at its current location in the early 1970s, and consists of a variety of renovated buildings. This development was created in reaction to the urgent need to add agents, equipment, and support resources as the amount of illegal traffic through the Indio Area of Operation (AO) increased. The existing USBP Indio Station can no longer effectively accommodate the number of USBP agents currently operation at the facility. There are currently 83 agents and 85 vehicles assigned to the station, even though the facility was originally designed for 20 agents. Within the past 18 months, Indio Station's enforcement activity has grown by nearly 800 percent.	EA	06/04/2003
2002031064	El Toro Road Traffic and Landscape Improvements Project EIR Lake Forest, City of --Orange The proposed project is the El Toro Road Traffic and Landscape Improvement Project by the City of Lake Forest. The City is proposing to make circulation and landscaping improvements to El Toro Road. Three options are proposed and analyzed throughout the EIR. The goal of the improvements in each of the options is to reduce congestion and enhance the aesthetics along the El Toro Road Corridor.	EIR	06/19/2003

2002042074	Trinity River Bridges Project Trinity County Planning Department --Trinity Modification or replacement, as necessary, of the existing Salt Flat, Bucktail, Poker Bar, and Biggers Road bridges across the Trinity River in order to accommodate possible future operational changes to the Trinity River Division of the Central Valley Project and to provide safe and reasonable access to parcels served by the bridges.	EIR	06/19/2003
2002112035	General Plan Text Amendment and Subsequent Permits to Allow Interim Recreational Uses in the South Almaden Valley Urban Reserve (SAVUR), File No. GPT01-10-02 San Jose, City of San Jose--Santa Clara General Plan text amendment to allow certain limited, interim recreational uses on public properties that are consistent with the long-term character of the south Almaden Valley Urban Reserve (SAVUR) and a public project to allow the development of a youth sports field complex. The proposed project would include up to 12 baseball/softball/soccer fields on approximately 35.4 acres of an approximately 77-acre property owned by the San Jose Unified School District. The proposal would allow up to three portable concession buildings, batting cages, a maintenance yard, a children's play lot, restrooms, and a parking lot to accommodate up to 475 parking spaces. The project does not propose the extension of any utility systems, such as electricity, sewer or water line extensions onto the site. To provide basic sanitary services, the project proposes the use of wells and a septic system. The project site is located on the north side of McKean Road, approximately 1,500 feet westerly of Fortini Road, in the SAVUR in an unincorporated area of Santa Clara County.	EIR	06/19/2003
2002121111	Robert A. Skinner Filtration Plant Reliability and Quality Program Metropolitan Water District of Southern California Hemet--Riverside The proposed Robert A. Skinner Filtration Plant-Reliability and Quality Program would include two primary components: a new 110-mgd treatment module (Module No. 7) at Plant 2 and a 630-mgd Oxidation Retrofit Program (ORP) to augment the plant's disinfection capabilities. Two options are under consideration for the ORP: one using ozone and the other chlorine dioxide. In addition to these primary components, the proposed program would involve installation of numerous ancillary facilities at the plant needed to upgrade the treatment systems and to improve overall plant operation. The proposed Program would make the Skinner Plant capable of meeting the forecasted water demand for southwestern Riverside and San Diego counties through the year 2025.	EIR	06/19/2003
1992061009	San Gabriel Canyon Sediment Management Plan (SMP) - Emergency Sediment Removal from San Gabriel Reservoir Los Angeles County --Los Angeles The emergency sediment removal project requires removing 5 to 12 million cubic yards (MCY) of sediment from San Gabriel Reservoir. The project will cover a five-year period. Sediment removal requires excavation and transport to Burro Canyon Sediment Placement Site (SPS), sluicing sediment into Morris Reservoir, or a combination of both. Transporting the excavated sediment to Burro Canyon SPS will be by trucking, conveyor belt, or a combination of trucking and conveying. San Gabriel Reservoir will be completely drained if sluicing is employed, or if	NOP	06/04/2003

	sediment needs to be removed from the lower area of the reservoir. Project mobilization and site preparation is anticipated to begin in 2003. Sediment removal will commence by summer 2004.		
2003051031	San Miguelito Partners Local Coastal Plan Amendment San Luis Obispo County --San Luis Obispo The proposed action consists of a request to amend the Local Coastal Plan (LCP) to expand the community of Avila Beach's Urban Services Line (USL) to include the project site. The project site is located east of the community of Avila Beach and the recently removed Unocal Tank Farm and west of and adjacent to the City of Pismo Beach (City). The site is accessed by Cave Landing Road, which runs through the project site in an east-west direction. The site consists of an approximate 135-acre parcel made up of five existing parcels. Four parcels would be developed as residential lots with the fifth lot to remain as open space.	NOP	06/04/2003
2003051032	DeVincenzo General Plan Amendment/Coastal Development San Luis Obispo County --San Luis Obispo General Plan Amendment/Coastal Development Permit (GPA/CDP) to change the land use designation to and construct a 125-room resort lodge (61 guest rooms in the lodge and 64 hotel village rooms split among 8 bungalow structures in two villages east and west), a restaurant, bar, gift shop, conference center, health club/spa, kitchen garden, botanical gardens, nature trails, and two residential units. Constructio would occur in three pahses. Phase 1) Grading, installation of retaining walls and erosion control measures, and installation of wetland and riparian enhancement components and replacement of removed trees; Phase 2) Construction of bulding pads, hotel, 4 bungalow structures, parking lot, conference center, and pedestrian/bicycle bridge crossing over Avila Beach Road; Phase 3) Constructionof remianing 4 bungalow structures, parking lot across Avila Beach Road, trails at the top of the ridge line, and manager's quarters.	NOP	06/04/2003
2003051025	Case No. 5.0666-B-PD-231, The Palm Springs Classic Palm Springs, City of Palm Springs--Riverside General Plan Amendment to L-6 (Low Density Residential), M-8 (Medium Density Residential) and H-30 (High Density Residential) and Preliminary Planned Development District in-lieu of a change of zone, to allow the development a 450 room resort hotel 1,450 residential units and an 18 hole golf course and related practice areas, and future 9 hole executive course.	Neg	06/04/2003
2003051026	Proposed Tentative Tract TT-03-008 Victorville, City of Victorville--San Bernardino To allow for a 78-lot single-family residential subdivision in one phase.	Neg	06/04/2003
2003051027	General Plan Amendment 03-002(A), Zone Change 03-004, Tentative Tract 03-017 Victorville, City of Victorville--San Bernardino Change the General Plan designation and zoning from Very Low Density Residential to Low Density Residential on approximately 28 acres and to allow a Tentative Tract Map subdividing 57 acres into 207 lots that conform with R-1 standards. 2003051028	Tentative Tracts TT-03-020 (15501) and TT-03-021 (15503) Victorville, City of Victorville--San Bernardino The subdivision of 50 acres for 217 single family residential lots on two tracts.	Neg	06/04/2003
2003051029	ENV-2003-2105-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles Site Plan Review for the construction of a multi-level (9 floors and basement), 180,000 square-foot medical research center, and a 1-story, 196 fixed-seat auditorium with ancillary conference rooms. Project will include a new surface parking lot containing 828 parking spaces. The project will require approximately 36,000 cubic yards of grading and exportation of dirt (requiring Haul Route Permit). The site is located on a 2-acre vacant parcel in the C2-1 zone.	Neg	06/04/2003
2003051030	ENV-2002-7627-MND Los Angeles City Planning Department --Los Angeles Coastal Development Permit, Mello Act Review, Specific Plan Project Permit, and Site Plan Review Findings for the construction of a 375,000 square-foot, 2 to 4-story, 298-unit, multi-family apartment facility with 670 parking spaces on a 5.8 acre site in the C4(OX)-2D zone.	Neg	06/04/2003
2003051033	San Juan Bautista Historic District and Site Plan and Design Review Ordinances and Design Guidelines San Juan Bautista, City of San Juan Bautista--San Benito The project consists of the adoption of a new Historic District and Cultural Resources Overlay Zone ordinance and Site Planning and Design Review ordinance and Design Guidelines for the City. The Historic District and Cultural Resources Overlay Zone ordinance will replace Chapter 5-19 of the City's Municipal Code (Preservation of Historical and Cultural Monuments), which was last updated by Ordinance 94-1 on February 15, 1994. The proposed Historic District and Cultural Resources Overlay Zone Ordinance implements General Plan Policies and Programs relating to preservation of cultural resources. The proposed Historic District and Cultural Resources Overlay Zone Ordinance will require the seating of a five-member Cultural Resources Committee that will act as an advisory body to the Planning Commission. Duties of the Cultural Resources Committee include updating the Cultural Resources Inventory, researching the potential to expand the Historic District, establishing an archive of records, and seeking state certification of the local register, as well as the City. In order for the City to qualify as Certified Local Government, the City must seat and maintain a separate Cultural Resources Committee. Once certified, the City may apply for state grants to update the Cultural Resources Inventory and improve and maintain its cultural resources.	Neg	06/05/2003

2003052027	Klamath River Aggregates Conditional Use and Surface Mining Permits/Reclamation Humboldt Community Services District --Humboldt A new 15-year permit term for a previously approved hard rock quarry surface mining operation, i.e. excavation and processing. The project includes a Conditional Use Permit, Surface Mining Permit, Reclamation Plan, and review of financial assurance cost estimates for the continued operation of a hard rock quarry for an average annual extraction of 12,500 cubic yards (with a 20,000 cubic yard peak) during fifteen (15) year period. The quarry is operated intermittently. The operation was previously approved June 4, 1987 with a modification approved January 7, 1988 to authorize the intermittent placement and operation of a portable rock crusher. The operation will primarily involve: extraction, sorting, crushing and grading; occasional blasting; on-site road and staging area improvements; storage of rocks, loading activities; hauling by truck; erosion control; and incidental and final reclamation.	Neg	06/04/2003
2003052028	Capistrano Bridge Fish Passage Pacifica, City of Pacifica--San Mateo Repair Capistrano Avenue bridge, improve fish passage, creek restoration.	Neg	06/04/2003
2003052029	Lake I Maintenance Roadway Zone 7 Water Agency Pleasanton--Alameda Zone 7 proposes to construct a bench and access roadway on the western margin of the reclaimed Lake I, a reclaimed sand and gravel quarry in the Chain of Lakes. The purpose of the bench is to provide access and a working platform for equipment used to maintain the function of the lake as a groundwater recharge facility. The bench would be excavated on the existing reclaimed slope of the former aggregate mining area approximately 15 to 20 feet below the top of the existing slope. To maintain the inclination of the existing slope, construction of the bench would require that the crest of the slope and the existing security fence would be relocated approximately 30 feet to the west. The upper security access roadway would be located west of the crest of the slope and would generally follow the alignment of an existing footpath.	Neg	06/04/2003
1993072081	Stanfield Marsh Waterfowl Habitat Improvement Plan Big Bear Municipal Water District CDFG is executing a Lake and Streambed Alteration Agreement (SAA#6-2003-045) pursuant to Section 1601 of the Fish and Game Code to the project applicant, Big Bear Municipal Water District. The applicant is proposing to reconfigure existing levee material from historic sewer ponds to create a single habitat island for waterfowl nesting and loafing. The island creation is one of the proposed projects identified in the Big Bear Municipal Water District's Stanfield Marsh Waterfowl Habitat Improvement Plan. The island will be approximately 55,000 square feet (1.26 acres) in area. A channel will be excavated around the island and towards the Stanfield Cutoff to allow the island to be surrounded by water, even in times of low lake levels. This excavation will move approximately 35,000 cubic yards of material, using it to construct the island. The remainder of the island will be constructed from the remnants of the existing levees with the remainder removed from the Marsh and disposed of in an upland location (approximately 32,000 cubic yards). The project will permanently impact 67,503 cubic yards of lake bottom and levee material.	NOD

2003058072	Reduction of Annual Emission Rates for the Delta Energy Center Project Energy Commission Pittsburg--Contra Costa Reduce the annual POC, PM10, and NOx emission rates for the Delta Energy Center Project.	NOE	
2003058073	Streambed Alteration Agreement (SAA#6-2003-059) for Santa Ana River Fish & Game Eastern Sierra-Inland Deserts Region --Riverside The Operator proposes to alter the stream channel to continue on-going maintenance activities involving sand sediment removal from the Santa Ana River, where the River Road Bridge crosses the Santa Ana River, in order to protect the bridge. Sand and sediment removal will be removed from a 700 foot-wide stretch of the river extending from 700 feet downstream of the bridge to 1000 feet upstream of the bridge. The project footprint includes all excavation, stockpiling and staging areas. The total impact area is 33 acres. No impacts will occur to riparian vegetation. The excavation area is maintained by sand berms that divert river flows into a pilot channel that conveys the water under the bridge and to the Orange County Water District's levee just downstream of the project area. The excavation area is divided by internal berms to create basins that can be mined separately. Heavy machinery is used to remove sand up to a depth of 13 feet within each basin, and to create and maintain berms. The basins may be divided into two or more sub basins. The basins are configured depending on the quantity of remaining sand and the presence of Santa Ana suckers in the area. Mined sand is stockpiled, screened and loaded onto trucks from staging areas on the north bank of the river, east and west of the bridge. Fifty truckloads per day is the maximum amount of sand hauled from the site.	NOE	
2003058078	Pond 12 Culvert Replacement Water Resources, Department of Lodi--San Joaquin The project entails the replacement of a culvert with a flap-gate that is in disrepair. The culvert crosses through a berm that bisects Pond 12 and an agricultural ditch that runs along the west side of the pond. The culvert and flap-gate system, serve to release water into the irrigation ditch when the water level in the pond exceeds the level in the irrigation ditch. This keeps the pond from overflowing. The culvert also has a screw gate on the pond side to shut off the culvert if needed. The culvert is 2 feet in diameter and about 20 feet in length and the replacement will be of the same diameter and of the same diameter and of the approximate same length.	NOE	
2003058079	Haynes Vineyard Fish & Game #3 Napa--Napa The Operator proposes to repair a section of bank and trim some vegetation impeding the flow to Whiteweather Creek located at 4047 E. Third Avenue, Napa, Napa County. The section of creek that will be impacted is from the gate at the bank failure to approximately 200-250 feet downstream just below the driveway road culvert. Issuance of a Streambed Alteration Agreement Number 1600-2003-0076-3 is pursuant to Fish and Game Code Section 1603.	NOE

2003058085	Sacramento High School Closure Sacramento City Unified School District Sacramento--Sacramento Sacramento High School will be closed, and its students reassigned to other area high schools. There will be no physical changes to the existing campus, which is to be turned over to a private entity to continue use as a school.	NOE	
2003058089	LaPurisma-Restore Historic Adobe Structures (Church and Monjerio) (02/03-CCM-15) Parks and Recreation, Department of --Santa Barbara Project consists of various structural upgrades including the stabilization, preservation, and partial restoration of the historic Church and Monjeiro buildings. This project is related to SCH #2002048444 which provided needed maintenance and structural upgrades to three other buildings at the park. Some very limited site excavation and grading will also occur to improve drainage immediately adjacent to the buildings.	NOE

2002062028	Eastridge Mall Redevelopment Project San Jose, City of San Jose--Santa Clara Redevelopment of the existing Eastridge Mall structure consisting of the demolition of 254,991 square feet of mall space, including the former Emporium building, ice rink, and portions of the existing retail mall space, and the construction of 254,991 square feet consisting of retail mall space, indoor movie theaters, and non-mall outbuildings.	EIR	06/23/2003
2002101018	Fountain Valley Regional Hospital Expansion Fountain Valley, City of Fountain Valley--Orange The project includes a Specific Plan Amendment, Precise Plan, and a Development Agreement to permit the demolition of the existing utility yard, a one-story maintenance facility and a portion of an existing parking area to allow the construction of a 128,000 square feet six-story building adjacent to the main hospital building. The proposed six-story building is planned for a total of 156 licensed beds, which will be composed of 88 relocated beds from the main hospital and 68 new licensed beds. An existing 2-acre parcel adjacent to Euclid Street will be developed to provide 266 new parking spaces. A Specific Plan Amendment is proposed to increase the allowable height limit, allowable Floor-Area-Ratios, and revise on-site parking and circulation layout.	EIR	06/23/2003
2003032104	Civic Plaza Parking Structure San Jose, City of San Jose--Santa Clara The current project proposes the development of a three-bay parking structure, which would contain 1,250 parking spaces. The proposed parking structure will be approximately nine stories tall, with two stories below grade and seven stories above grade, for an above-ground building height of approximately 70 feet. The main access to the proposed parking structure would be from Fourth Street, which	EIR	06/23/2003

1991101040	San Diego Pipeline No. 6 Project Metropolitan Water District of Southern California The Metropolitan Water District of Southern California (Metropolitan) is proposing modifications to the previously approved San Diego Pipeline No. 6 Project. The proposed project modifications would include: (1) the procurement and use of additional temporary construction, storage, and staging areas; (2) relocation of the connection point at Lake Skinner; (3) installation of a service connection to a member sub-agency; and (4) acceleration of the construction schedule and change in construction methodology.	NOP	06/06/2003
2002031028	Homeplace Retirement Community Los Angeles City Planning Department Los Angeles, City of--Los Angeles A three-lot subdivision (lots A-C) of a 17.2 acre lot in the A1-1-XL zone which is currently improved with a pitch and putt golf course, driving range, club house and twenty tennis courts. Lot A will be approximately 11.78 acres and will consist of the existing golf course, driving range, and club house. A Development agreement is proposed to assure preservation of the golf course. Lot B will be approximately 4.42 acres, and a Zone Change from A1-1-XL to R3-1 and a General Plan Amendment from Open Space to Medium Density Residential is requested. 240 senior housing units for independent living are proposed to be built within six, four-story, 45-foot high buildings. 611 Subteranean parking spaces will be provided. Lot C will be approximately 1-acre, and a Zone Change from A1-1-XL to PF may be needed. Lot C is proposed as either to be kept as open space or for use as a fire station. All twenty of the existing tennis courts will be permanently removed. The following approvals may also be required for the proposed project: Conditional Use Permit for the deemed to be approved pitch and putt golf course; a Building Line Removal incident to Subdivision for the existing 18-foot building line along Whitsett Avenue; Site Plan Review for the senior housing development; grading and building permits, haul route hearing and other discretionary and ministerial approvals necessary to obtain building permits and complete construction. 2003052031	City of San Rafael General Plan 2020 San Rafael, City of San Rafael--Marin A comprehensive update of San Rafael General Plan 2000.	NOP	06/06/2003
2003052035	San Francisco County Transportation Authority: Expenditure Plan and Sales Tax Reauthorization San Francisco County Transportation Authority San Francisco--San Francisco In September 2002, the Authority adopted a schedule for the creation and adoption of an Expenditure Plan for a transportation sales tax reauthorization. The Authority proposes to rescind the current 1/2-cent sales tax and substitute a tax of the same amount, which would start collection in April 2004 and continue for a period of thirty (30) years. Development of the Authority's Countywide Transportation Plan (CWTP) serves as the foundation of the Expenditure Plan. The Expenditure Plan reflects the policy goals and priorities identified in the CWTP and includes a program of investments to implement the Plan. For purposes of this EIR analysis, the proposed project is a program of investments to be funded by a sales tax of 1/2 cent for a period of 30 years. The primary objectives of the Expenditure Plan are to implement the goals of the CWTP through investment in a set of projects and programs that encompass planning, maintaining and improving the City's multi-modal transportation system. The project proposes development (in two phases), of office uses, retail uses, and an Armenian Cultural Center. The project would also include a 50 space on-site parking lot, with an additional six-story, 700 space parking structure.	NOP	06/09/2003
2003021069	Zone 7 Master Plan Water System Improvements West San Bernardino County Water District Fontana--San Bernardino West San Bernardino County Water District proposes to install two (2) new water reservoirs and approximately 18,500 linear feet of underground domestic water pipelines within portions of the unincorporated area of San Bernardino County and the City of Fontana for the District's Zone 7 service area.	Neg	06/09/2003
2003051034	Onder Open Space Vacation & Boundary Adjustment with a Certificate of Compliance San Diego County Department of Planning and Land Use --San Diego The proposed project is an application for an open space vacation on a portion of Lot 288 of Map 8031. The proposal is also an application for a boundary adjustment with a Certificate of Compliance to reconfigure the lot lines between Parcels A and B, to rectify the pool area and fence being built within the existing open space easement. The intent of the open space easement was for park and/or recreational purposes on lands directly abutting the site. The current owner bought their home approximately 8 1/2 years ago, and the existing backyard fence line was located outside of their property in an area that was thought to be the property corners. In October of 1998, the applicant gave plans to their San Diego Country Estates Association for a pool, showing what he thought were the existing property lines. The San Diego Country Estates Association and the County of San Diego approved the plans, and the applicant received the proper permits to construct the pool and deck. The applicant never had the property surveyed, and after building the pool and deck, discovered that the pool area was outside of their parcel and belonged to the San Diego Country Estates Association. This open space vacation application is also being processed concurrently with a boundary adjustment (BC 02-0116) to rectify the pool area and fence being built on the open space easement. 2002021066	City of Lancaster Avenue G Widening Project Lancaster, City of Lancaster--Los Angeles The proposed Avenue G improvement project is a two-part project: a) the widening of the existing Avenue G and b) the placement of a storm drain and water main. The project consists of a widening of Avenue G from an existing 2-lane (24-foot wide) road to a 6-lane (104-foot wide) road with a 14-foot wide raised median, curbs, and gutter. The final total new right-of-way will be 120 feet, which will include the widened roadbed and width reserved for future sidewalks, parkway, and driveway improvements. In addition, the project will include a new storm drain system and catch basins that will be installed as necessary to be consistent with the City's Master Plan of Drainage. The proposed drainage project consists of constructing a combination of storm drain and water main improvements along Avenue G from 25th Street West to 50th Street West and south on 30th Street West and 50th Street West to Avenue H. Most of the drainage system would be placed under the existing roadways.	NOD	
2002091106	Pasadena City College Master Plan 2010 Pasadena Area Community College District Pasadena--Los Angeles Remove the existing Music Building (K Building) and the existing Technology Building (T Building). Construct a new Combined Arts Building and a new Industrial Technology Arts Building. Construct a new 4.5 floor parking structure, with the half level below grade, on Bonnie Avenue, about midway between Colorado and Del Mar Boulevards. Add a multi-purpose physical education field alongside the parking structure at Bonnie and Del Mar. Replace the existing Campus Connection Center with a new facility to house the Campus Cafe, security office, Associated Student offices, student copy center and coffee bar, a bookstore, and Student Business Office. Renovate spaces on the first floor of the E Building; the first, third and fifth floors of the R Building, the Boiler House; the V Building; the W Building; and the Z Building. Renovate and upgrade utilities systems and services. Create an East Campus Gateway at the east edge of the campus that will simultaneously improve circulation along Bonnie Avenue, create a student drop-off area, and provide a temporary bus parking area for the athletic teams adjacent to the proposed practice field, the stadium, and to the proposed Arts building. Create a West Campus Gateway to improve the operational efficiency of the Hill Avenue/Green Street intersection, provide a student drop-off facility adjacent to the proposed new Campus Center entrance, and Quad	NOD

2003052044	Johnson Ranch Estates Sacramento County Galt--Sacramento The proposed project is a request for, A Tentative Subdivision Map to divide 65+/- acres into 30 lots on property zoned AR-2, An Exception from Title 22.24.630(2) to allow private wells, and An Exception from Title 22.110.070(e) to allow the depth of several lots to exceed three times their width.	Neg	06/10/2003
2003052045	Clark Pacific Industrial Reorganization to the City of Woodland (LAFCO Proceeding #886) Yolo County Local Agency Formation Commission Woodland--Yolo The project consists of a request of LAFCO to annex the subject property into the City of Woodland to allow for subsequent industrial development. The total annexation area is 247.7 acres. This is comprised of 10.1 acres of right of way along CR 102 and East Kentucky Avenue, plus APN 027-210-18 consisting of 237.6 acres.	Neg	06/10/2003
2003052046	Scherber Estates Rezone and Tentative Subdivision Map Sacramento County Elk Grove--Sacramento The proposed project is a request: 1. A Rezone from AR-10 and AR-10(F) to RD-3 and RD-4. 2. A Tentative Subdivision Map to create 34 lots from a 10+/- acre parcel.	Neg	06/10/2003
2003052047	Crystalline Rock Quarry; Conditional Use Permit (98CUP-028) and Reclamation Plan (98RP-001) Tuolumne County Community Development Dept. --Tuolumne The proposed Conditional Use Permit would allow establishment of the Crystalline Rock Quarry operation at the site of the former Crystalline Mine. The project would entail rock quarrying, crushing, and sales of crushed rock products on the property, which was previously mined for gold by the Sonora Mining Corporation. The proposed reclamation plan documents the planned manner or closure and reclamation of the site, and operational characteristics of the site related to closure and reclamation. Anticipated to have a 15 year lifespan, the project could sell 200,000 cubic yards of rock a year, and be open for business from 7:00 AM to 5:00 PM, six days a week. Lower market demand could extend the lifespan.	Neg	06/10/2003

2003058144	<p>Destruction of Mission Avenue Wells Located in the City of Oceanside, California Carlsbad, City of Oceanside--San Diego</p> <p>Destroy two groundwater wells and associated above ground wells and structures. The wells are located on a parcel owned by the City of Carlsbad southeast of the Mission Avenue and Foussat Road intersection in the City of Oceanside. It is anticipated that all work activities will take up to one week to complete and will occur in May or June 2003.</p>	NOE	
2003058145	<p>Monastery Creek Contaminant Removal Fish & Game #3 Carmel--Monterey</p> <p>For many decades, bottles, rubbish and other materials have been disposed of in a shallow, unpermitted dump site, near the headwaters of the creek. Laboratory analyses of the site have found levels of lead that exceed preliminary remediation goals established by the Environmental Protection Agency. The proposed project would completely remove debris and contaminants from the site. An excavator would be used to remove the topsoil to a depth of approximately one to two feet. Materials in the creek bed would be removed by hand and placed in the excavator bucket. All soil contaminated with hazardous waste would be disposed of at an appropriate facility. Soil that is not contaminated would be sifted to remove debris and then used as backfill over the site, then compacted and stabilized with jute netting, native grasses, and straw. Approximately 80 tons of contaminated soil and 150 tons of debris would be removed from the site. Upon completion of construction, the site would be revegetated using native grass species endemic to the site.</p>	NOE	
2003058146	<p>Vino Farms Riverbank Repair Fish & Game #3 --Sonoma</p> <p>Stabilize an eroding section on the bank of the Russian River between two existing sections of rip-rap. Rock rip-rap will be placed over an approximately 100-foot length of river bank. The rip-rap will consist of about 350 CY of 1/2 to 1 ton rock placed in a layer about 4 feet thick. The voids between the rock will be filled with river gravel and soil. The bank above the top of the rip-rap will be compacted and graded to a 2:1 slope. Willow cuttings will be placed within the rip-rap to restore habitat and provide additional bank stabilization. Issuance of a Streambed Alteration Agreement Number 1600-2003-0217-3 pursuant to Fish and Game Code section 1603.</p>	NOE	
2003058147	<p>Flood Control Channel Bridge Fish & Game #3 --Alameda</p> <p>On this previously graded, former Bay Area Rapid Transit (BART)/ Railroad property, which is adjacent to the Mission Hills of Hayward Golf Course, a new, prefabricated steel bridge is to be built over a concrete flood control channel section to allow passage to a new golf practice facility. The bridge will not have piers, or any other structure within the channel, or banks of the concrete section of the channel. No construction activity, or materials, shall enter the flood control channel.</p>	NOE

2003011055	Boating Instruction and Safety Center (BISC) Ventura County Oxnard--Ventura The proposed project consists of the development of the Boating Instruction and Safety Center (BISC) located in and owned by the County of Ventura. The 0.84-acre project site would consist of approximately 26,000 SF of exterior space and approximately 24,000 SF of dock space, which includes a full ADA access ramp from the main building to the docking area. In addition, the center would consist of a two-story, 18,887-SF building and a one-story, 1,000-SF maintenance/storage building. The proposed center would be designed to provide training in sailing, rowing, kayaking, and canoeing for athletes, local public schools, California State University, Channel Islands (CSUCI), and the general public on a fee basis. In addition, the County would operate the center in partnership with CSUCI to provide programs in marine biology, ecology and oceanography. A multi-purpose "Gathering Facility" is proposed on the second level of the main building center. The proposed second floor gathering area, which includes the outside deck areas, consists of approximately 3,816 SF of indoor floor area and 2,645 SF outdoor deck area gathering area, which includes the outside deck areas for a total of 6,461 SF. The walls of the four multi-purpose rooms can be folded and converted into one large gathering area to accommodate public and private events or meeting, conferences, assemblies, gatherings, banquets, fundraisers, and various events which the space would allow.	EIR	06/27/2003
2003021027	Tribal Environmental Study for the Morongo Casino/Hotel Morongo Band of Mission Indians --Riverside The proposed project consists of the construction of a new 397,100 square foot casino, replacing the existing casino, and a 310 room hotel facility with associated parking and site landscaping covering approximately 44 acres. 2003052061	Subdivision 8727-Allen Property Oakley, City of Oakley--Contra Costa The proposed project site consists of Rezoning the 5-acre site from A-2 to P-1 (planned Development) for residential development, a Tentative Map for a twenty-seven lot subdivision and Design Review of four floor plans on the 27 lots.	NOP	06/12/2003
2003052069	Assieh Industrial Project EIR Manteca, City of Manteca--San Joaquin The proposed project entails the development of an 80-acre Industrial Park, consisting of six industrial warehouse structures, to be constructed in two phases. The first phase will result in the construction of approximately 521,730 square feet of warehouse structures and associated ancillary features and the second phase will result in the development of approximately 882,950 square feet of warehouse structures and associated ancillary features. In all, the proposed project will result in approximately 1,400,000 square feet of development. Project improvements will include paved surface area, drive and access ways for 124 truck trailer parking spaces, 942 standard automobile parking spaces, 420 compact automobile parking spaces, and 38 accessible parking spaces. Ancillary features include three retention ponds and trash enclosures. Additionally, at least five percent of the project site will be landscaped and an earthen berm is to be constructed along Louise Avenue.	NOP	06/12/2003
2003051062	City Trunk Line South: Canterbury/Nagle to 450 South of Hamlin/Whitsett Los Angeles County Department of Water and Power -- The proposed project would involve the replacement of a portion of the existing City Trunk Line with approximately 3.3 miles of new welded steel pipeline to improve water conveyance and reliability to San Fernando Valley area users.	Neg	06/12/2003

2003051064	Finlayson Tentative Parcel Map San Diego County Department of Planning and Land Use --San Diego The project proposes a minor subdivision of 13.04 gross acres inot four residential lots (plus a remainder parcel) ranging from 2.0 to 3.3 net acres. The site, which generally slopes from north to south, includes a single-family home (to remain) and a mature grapefruit grove. The subdivision is located between Villa Sierra Road and Cool Valley Lane, approximately 0.13 miles south of Cool Valley Road. The project site is located within the Valley Center Community Plan and has a Land Use Designation of 17-Estate Residential, which allows for 1 dwelling unit per 2 or 4 acres. The project site is zoned A70-Limited Agriculture that requires a 2.0 acre minimum lots size. An open space easement is proposed to protect a RPO wetland and other sensitive vegetation. Additionally, impacts to Chapparral will be mitigated with the off site purchase of 0.33 acres in a County-approved mitigation bank. A Mitigated Negative Declaration was adopted on October 13, 1992 for the original project.	Neg	06/12/2003

1999121075	General Plan Update Fillmore, City of Fillmore--Ventura The proposed project is an update of the 1988 Land Use and Circulation Element of the City of Fillmore General Plan (hereinafter referred to as the "General Plan Update"). The General Plan Update addresses the community's vision for development during the planning horizon, identified as the year 2020. The General Plan Update includes a map of proposed urban boundaries and planned land uses. It also contains goals, policies, and implementation measures that will govern the growth of the City and the management of its resources. The General Plan Update only involves three elements (Land Use, Circulation and Housing Elements) of the seven mandated elements of the City's General Plan. The remaining mandated elements, Conservation, Open Space, Noise, and Safety Elements are not included in the proposed General Plan Update.	NOD	06/12/2003
2002121033	Big Bear City Community District Groundwater Exploration and Well Test and Development Program Big Bear City Community Services District --San Bernardino The Big Bear City Community Services District (District) provides water to 5,120 acres of land serving approximately 7,900 full-time residents (year 2000 estimate). The District initiated a test well program, which has been implemented and is proceeding to install and operate water production wells at the same locations where the test wells were installed. The proposed project is the drilling of three water production wells at various locations on the southerly side of Bear Valley to produce between 200 and 400 gallons per minute.	NOD	
2002121095	Vesting Tentative Tract Map 6149 Bakersfield, City of Bakersfield--Kern A proposed subdivision on a total of 174.68 acres, containing 558 lots on 169.43 acres for the purposes of single family development, and 2 lots containing 5.25 acres for public park purposes, zoned R-1 (one Family Dwelling) including a request for alternate lot and street design.	NOD

2003012076	Raymond & Kris Pelletier Zone Change (Z-02-13) Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants request Zone Change from C-C (Town Center) to R-R (Rural Residential Agricultural) to allow for the construction of a single family dwelling and accessory uses.	NOD	
2003042061	Rock City Day Use Area Rehabilitation Parks and Recreation, Department of Clayton--Contra Costa Install vehicular barriers to prevent encroachment into natural areas. Consolidate trails to reduce compaction in natural areas and improve accessibility. Restore eroded areas around picnic sites. Repair CCC site furniture following Secretary of the Interior Standards. Revegetate eroded areas or areas disturbed by construction. Grade site for construction of future comfort station (reviewed and approved as separate project, per Notice of Exemption, SCH #2001088271 filed on 8/17/2001). Remove unsafe informal parking along Southgate Road. Grade and pave one small parking along Southgate Road. Grade and pave one small parking lot to replace informal parking. Correct drainage failures that have caused erosion. Repave disintegrated roadways. Install regulatory signage. Install regulatory signage. Install accessible picnic tables and grills. Install interpretive signage discussing sensitive resources. Recognize, re-grade and pave existing parking areas. Remove unnecessary paving. Relocate several vehicular gates.	NOD	
2003042080	Primary Road Improvements Parks and Recreation, Department of Clayton--Contra Costa DPR proposes to make the following high priority improvements to the primary road system that serves Mt. Diablo State Park. *Install, new or repair/replace failing existing drainage collection points. *Repair, modify, or replace existing road culverts or install new culverts where needed. *Install rock slope protection on the cut side of the roadway to limit erosion. This project would make high priority improvements to the primary road system that serves Mt. Diablo State Park. The work will improve the safety of the road conditions for both motor vehicles and bicyclists and would prevent further erosion and degradation of the existing road system. The following is a summary of the improvements proposed on South Gate, North Gate, and Summit Roads: -Install new or repair/replace failing existing drainage collection points; repair, modify, or replace existing road culverts or install new culverts where needed; install rock slope protection on the cut side of the roadway to limit erosion; repair existing retaining walls; restore existing road embankment in areas of severe subsidence. -Reconstruct or stabilize approximately 500 linear feet of road base structural	NOD

	Program for FY 2003-2004. The property will be conserved in perpetuity as a natural open space and habitat conservation area and will be accessible to the public for passive recreation along the existing trails connecting to Daley Ranch trails. In addition, the property will provide a wildlife habitat corridor between the Daley Ranch Conservation Bank located to the west and City-owned watershed property to the east. The property has a Rural 1 General Plan designation (Tier 3-Lake Wohlford).		
2003058206	Stanley Peak Acquisition (ER 2003-11) Escondido, City of Escondido--San Diego Proposed acquisition of the 103-acre Stanley Peak property, located adjacent to the northeast City boundary. Partial funding for the acquisition is anticipated from the California Department of Recreation under the Habitat Conservation Fund Program for FY 2003-2004. The property will be conserved in perpetuity as a natural open space and habitat conservation area and will be accessible to the public for passive recreation along the existing trails connectiong to Daley Ranch trails. In addition, the property will provide a wildlife habitat corridor between the Daley Ranch Conservation Bank located to the west and City-owned watershed property to the east. The property has a Rural 1 General Plan designation (Tier 3-Lake Wohlford).	NOE	
2003058207	Corte Madera Creek Slope Stabilization Fish & Game #3 Portola Valley--San Mateo Project is to stabilize the stream bank following erosion from previous runoff. Issuance of a Streambed Alteration Agreement Number R3-2001-1012 pursuant to Fis and Game Code Section 1603.	NOE	
2003058208	County Public Works; River Road Bridge Replacement Project: ED99-202 (C990018E/P12A705) Fish & Game #3 San Luis Obispo--San Luis Obispo The River Road Bridge crosses the Salinas River in the community of San Miguel in northern San Luis Obispo County. The existing bridge was scheduled for seismic retrofitting but reactive aggregates in the existing bridge pilings have decreased the bridge's load carrying capacity, making it unsafe for long term vehicular use. The proposed project would construct a new concrete bridge immediately upstream (south) and approximately 10 feet from the existing bridge. The new two-lane bridge would consist of 8 spans supported by 7 pilings placed within the river bed. The pilings would be approximately 7 feet in diameter and constructed using cast-in-drilled holes approximately 70 to 80 feet deep. No construction activities would occur within 15 feet of the wetted channel. Construction would occur over a two year period. Upon completion of the new bridge, the existing deteriorated bridge would be demolished and removed from the site. Because the project is within known habitat of San Joaquin kit fox (<i>Vulpes macrotis multica</i>) and southern steelhead (<i>Oncorhynchus mykiss irideus</i>), a biological monitor would be onsite during construction to ensure no impacts occur to these or other special-status species. Issuance of a Streambed Alteration Agreement Number 1600-2003-0085-3 pursuant to Fish and Game Code Section 1601.	NOE

2001122003	Revisions to The City of Fremont Waste Management System Fremont, City of Fremont--Alameda Revisions to the City of Fremont's solid waste management system. Specific changes proposed include: (1) have all of the City municipal solid waste (MSW) taken to transfer station/materials recovery facility (TS/MRF) to be located at 41149 Boyce Road instead of to the Tri Cities Recycling and Disposal Facility (TCRDF) landfill; (2) to divert, at minimum, 12 percent recycled materials from the MSW received at the TS/MRF facility; (3) to have the remaining MSW transferred to an existing sanitary landfill in either San Joaquin County or Alameda County; and (4) to create a household hazardous waste turn-in facility that is easily available to residence and small quantity generators and is consistent with Best Management Practices for such a facility. Other activities which may be allowed at the proposed TS/MRF on Boyce Road could include the transfer of MSW collected in the Cities of Union City and/or Newark, the processing of source separated recyclables and yard waste collected within the City of Fremont and/or the cities of Union City and Newark, and the processing of recyclables from outside the Tri-Cities.	EIR	06/30/2003
2003032039	Silva Valley Parkway Water Main & Sewer Force Main Project El Dorado Irrigation District --El Dorado The proposed project would involve the construction of approximately 11,000 lineal feet of 42-inch water main and approximately 6,500 lineal feet of 16-inch sewer force main. Approximately 8 air-release valves and 6 blow-off valves are associated with the mains. The project also includes upgrading the existing pumps with new larger pumps and the associated electrical and mechanical equipment. An approximately 40-foot-wide construction corridor along the proposed alignments and a staging area (200 feet by 110 feet), located along the Silva Valley Parkway, would be required. Approximately 200 linear feet would be disturbed on any given day during construction. Approximately 25 cubic yards of soil would be moved on on a daily basis. Soil would be stored adjacent to the trench, within the construction corridor. The average depth of trenches would be 4 feet, with the deepest approximately 11 feet. For the water main, the estimated total volume of earthwork is between 19,000 and 21,000 cubic yard. Blasting will	EIR	06/30/2003

2003051074	Smith Clark Brothers Ranch Villa Park, City of Villa Park--Orange Construct a 10,000 s.f. residence on an existing residence site that is listed in the National Historic Register. The existing historic Farm house will be saved by relocating it on the site enclosing it as a second unit. A 200 year old California Oak Tree will be saved onsite, but a 100 year old Morten Bay Fry will be demolished. The fig tree is damaging adjacent property.	Neg	06/13/2003
2003051075	Olson Ranch Vineyard Monterey County Planning & Building Inspection Soledad--Monterey Use Permit for the conversion of uncultivated land to cultivated use on slopes in excess of 15% and a grading permit for construction of an irrigation reservoir and all related road construction.	Neg	06/13/2003
2003051077	Merced County Office Building and Justice Facility Project Merced County Los Banos--Merced The County of Merced proposes to consolidate its administrative facilities in downtown Los Banos by constructing a new office building on I Street across from the existing county courthouse building, and a new 150-space parking structure adjacent to both buildings. The project would consolidate county functions, relieve current overcrowding and accommodate project growth in employment by about 106 employees between 2005-06 and 2010.	Neg	06/13/2003
2003051080	ENV-2003-2336-MND Los Angeles City Planning Department --Los Angeles A Vesting Tentative Tract, Zone Change from RE11-1 to C1-1, and a Conditional Use Permit to allow a 19-unit detached condominium project to be built on a 1.28 acre, corner lot. The Conditional Use Permit would allow a multiple-family residential use on a commercially zoned lot and allow deviation from Commercial Corner Development limits both on hours of operation and the percent of transparent windows on exterior walls. Forty-seven total parking spaces will be provided (2 spaces per unit plus 9 guest spaces). The total project size 34,200 square-feet. The proposed unit heights are 2-stories, 30-feet.	Neg	06/13/2003
2003052071	Ammoniation Project 1203202 Zone 7 Water Agency Pleasanton--Alameda Zone 7 Water Agency (Zone 7) proposes to replace the ammoniation systems at three existing Zone 7 well sites, including Mocho Well No. 1, Hopyard Well No. 6 and Stoneridge Well. These sites are located in developed, urban portions of the City of Pleasanton, in Alameda County. The ammoniation systems would be housed within 12- by 13-foot structures with a maximum height of 12 feet. The buildings would be located adjacent to existing pump house structures within the fence lines of the well sites, and integrated in the architectural style and colors of onsite structures. Each building would contain a 500-gallon aqueous ammonia	Neg	06/13/2003

1992041053	Concurrence in the Issuance of a Full Solid Waste Facility Permit (SWFP No. 19-AR-0002) for Sunshine Canyon City Landfill Unit 2, City of Los Angeles Los Angeles, City of Los Angeles, City of--Los Angeles Issuance of a Solid Waste Facility Permit for operation of Unit 2, Phase I of the Sunshine Canyon City Landfill that will encompass 84 acres within a 494-acre permitted site and have a maximum vertical elevation of 1830 feet. Peak permitted tonnage will be 5,500 tons per day or 30,000 tons per week based on a 6 day week, operation hours will be 6 am to 6 pm, Monday through Friday, and 7 am to 2 pm on Saturday.	NOD	
1998052070	Tuolumne River Restoration Projects; R4-2002-0045, Gravel Mining Research and Special Run Pools 9/10 Restoration and Mitigation Projects, the M.J. Ruddy and... Turlock Irrigation District Waterford--STANISLAUS The California Department of Fish and Game (Department) is executing a 1601 Stream Alteration Agreement with the Turlock Irrigation District (District) for the District's use of the Tuolumne River. The Project consists of the following: The District will restore a single channel and floodplain through the M.J. Ruddy and Warner/Deardorff segments (Phase II and III) to convey flood flows of 15,000 cubic feet per second (cfs) and allow the channel to migrate within the restored floodplain. The District will prevent salmon mortality that encroach on the wider 15,000 sfs floodway. The District will prevent salmon mortality that result from frequent connection between Tuolumne River and off-channel mining pits. The District will restore native riparian communities on appropriate geomorphic surfaces (i.e. active channel, floodplains, terraces) within the restored floodway and restore habitats for other native species. The District will remove floodway "bottlenecks" created by inadequate berms and improve flood protection for aggregate extraction operations, bridges, and other human structures. The Department entered into a 1601 Stream Alteration Agreement with the District to ensure that appropriate measures for wildlife monitoring and protection, vegetation protection, and erosion control are implemented throughout the Project. The project period is from the execution of the Agreement through five years.	NOD

Zone change is for a 430-acre site, providing for the development of up to 10, 212, 352 square feet of General Industrial and Medical and Science Uses.</p>	NOD	
2001051010	<p>Jeffrey Open Space Spine, 00317631-PPA and Supplemental Environmental Impact Report for the Northern Sphere Area. (SCH 2001051010). Irvine, City of Irvine--Orange</p> <p>As part of Memorandum of Understanding of 1988 between The Irvine Company (TIC) and the City of Irvine, TIC committed to the dedication of the Jefferey Open Space Spine (JOSS). The JOSS consists of a passive open space corridor averaging 300' along the eastern side of the portion of Jeffrey Road from the Santa Ana (I-5) Freeway to the NCCP dedication area. In 1995, in an agreement with County of Orange, TIC agreed to dedicate an additional 25' as permanent open space, for a total width of 325'. The adopted zoning for the Northern Sphere area required an average width of 325 feet, with an allowance for a reduction in acreage in conjunction with the provision of amenities and improvements equal to the dollar value of the amount of acreage decreased, consistent with the City's park dedication requirements. The required minimum Spine width is 200 feet, except at the County flood control facilities between Trabuco Road and Bryan Avenue, where the required width is reduce to 50 feet. The City of Irvine is seeking approval of a Park Plan which will cover the 96 acre portion of the Jeffrey Open Space Spine north of the I-5 Freeway. The City is considering demolition of the Irvine Valencia Parking House as part of project implementation, the effects of which is evaluated in the Northern Sphere Supplemental EIR.</p>	NOD

2003032080	<p>CSU-Stanislaus Science Building II California State University Trustees Turlock--Stanislaus</p> <p>This 69,640 ASF/113,761 GSF replacement facility at CSU Stanislaus will provide a modern and efficient teaching environment for the science disciplines, to be occupied by January, 2007. The project will have the capacity to support 489 FTES in lecture space, 186 FTES in teaching laboratories, 58 faculty offices, 5 department offices with related clerical support, instructional activity spaces, and miscellaneous storage and support functions. Programs to be housed in the Science II Building are: Biological Sciences, Chemistry, Geology, Astronomy, and Physics and Physical Sciences. This 3-story steel framed facility utilizes an exterior skin of GFRC panels and a mix of gray tinted and gray reflective glazing. Internally, building circulation is ordered around a central full height atrium space. Within this atrium space, the support structure for the rooftop observatory will be expressed and visible. Extensive glazing on the north and east sides relate well to intended faculty office uses while more limited glazing to the south and west more appropriately serves the various proposed lab and instructional spaces.</p>	NOD	
2003032081	<p>Tentative Subdivision Map S-11-02 and Planned Development PD-2-02, East Oak Estates Redding, City of Redding--Shasta</p> <p>Entitlements requested to divide roughly 27 net acres (33 gross) into 76 lots to accommodate 152 residential units, a child daycare facility, and a small neighborhood park. Single-family homes would be constructed on 48 lots, with the other 26 lots developed with four-unit apartment buildings.</p>	NOD
